## Lightwave 4000™ Flashlight

Utilizes TEN high-powered super-bright white LED light sources

- The world's first D-cell LED flashlight - uses three D-cell alkaline batteries (not included)
- Super-bright, easier to see with white light
- Solid-state light emitting diodes (LEDs) do not burn out. Typical lifetime: over 11 years of continuous use
- Solid-state circuitry makes a set of batteries last up to over one month (of continuous use)
- Waterproof – designed for use in all weather conditions (to one foot – not for scuba diving)
- Shockproof – has withstood drop test of 4 feet onto concrete
- High impact composite ABS plastic case with genuine rubber over-molding
- Push button for easy on/off
- Industrial grade switch, rated for 10,000 on/off operations
- Size: 2 inches diameter by 10.8 inches long

**#LF4000**

## Lightwave Illuminator™ Head-Torch

Utilizes FOUR high-powered, super-bright white LED light sources

- Uses three AA alkaline batteries – not included
- Super-bright, visible for over one mile
- Solid-state light emitting diodes (LEDs) do not burn out. Typical lifetime: over 11 years of continuous use
- Solid-state circuitry makes batteries last 14 times longer than a regular head torch (over 330 hours)
- Waterproof – not just water resistant (to 2 feet - not for scuba diving)
- Shockproof – has withstood drop test of 10 feet
- High impact composite case
- Twist Illuminator's head for easy on/off
- One inch wide adjustable elastic strapping
- Angle adjuster-plate allows the light angle to be directionally adjusted up or down
