# TRAINING

**SAFETY & TRAINING**

## Annual Safety Training

**Don't Waste Time Searching for the Information You Need.  
All Your Safety Training Needs In One Kit!**

Your annual safety training required by OSHA can be met with this set of 12 Power Point™ presentations. Training is a key component of vacating OSHA citations and provides protection from being an OSHA targeted company. It can help reduce costly accidents, Worker Compensation costs, and OSHA penalties. Excellent for use with groups or individuals.

Contents: Powered Industrial Trucks, Respiratory Protection, Personal Protective Equipment, Lockout/Tagout/Verify, Hearing Conservation, Hazard Communication, Fire Protection, First Aid & CPR, Fall Protection, Driving Safety, Working Safely Around Asbestos, Assured Grounding and Basic Electrical Safety.

**#ASTOSHA**

## Rigging - Second Edition

This pocket-size handbook is practical and organized. It contains the latest information on wire rope, rigging hardware, and slings, including capacity tables and charts. Also covers load weight estimation, sling loading calculations, and proper handling of loads. This is a must-have handbook for anyone who works with cranes and rigging. Also an excellent text for training.

**#RSEPS**

## "In a Flash" Rigging Gear Inspection Guide

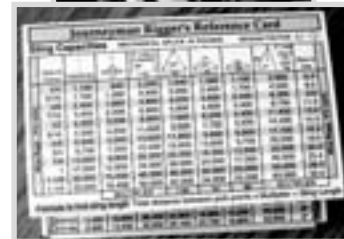

An amazing collection of 110 color photos that depict the most common types of damage outlined by OSHA, ANSI, ASME regulations which require the gear's removal from service. Also included, are 110 black & white photos outlining the reason for removal. By Training & Inspection Resource Center. 224 pages, 3"x5" pocket-size

**#RGIG110**

## Journeyman Rigger's Reference Card

This card shows load drifting, off-set CG, weights, sling capacities and hitch types, signals, block rigging and hardware data. Ten panels fold to 2"x 3.25"; By Wire Rope & Rigging Consultants.

# DEBRIS NETTING

SAFETY

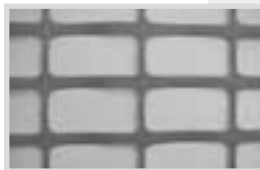

## Pearlweave Debris Net

PearlWeave is effective as a vertical barrier for open floors, scaffolding, warehouse storage racks, conveyers, and sports applications. It is used to satisfy OSHA regulations for debris containment, perimeter safety, overhead protection, and the all-inclusive "general duty" clause. PearlWeave is useful as a horizontal debris net when installed above elevated worksites. PearlWeave protects both workers and the public from falling debris, tools, etc. Available in rolls 102" x 150' or in 5' x 8'; Individual pieces with sewn sleeves to insert a 2x4 or conduit to attach to the removable barricades.

#DN150 102" x 150' Black

#DN56 5' x 8' barrier with sewn sleeves

## Strongman Safety Netting
